COPE Meeting - December 14, 2011

Present: Ken Logan, Betsy Vinson

Betsy Vinson and Ken Logan met as representative of the COPE committee with Kenneth J. Osfield, Ed. D., ADA Coordinator, from the Americans with Disabilities Act Office at UF to review our most recent work on the Essential Functions document. We sought Dr. Osfield's input to be sure that the language of our document was consistent with ADA specifications. He requested two minor revisions in our draft document. These revisions were made and the document is now considered complete. It is a statement of the essential functions that graduate clinicians in the SLP and AuD programs must be able to meet. Betsy and I will distribute it to Judy Wingate and Scott Griffiths, to be sure that it is placed in the clinical handbooks for both clinical programs.
