Speaker Bios

Dr. Joshua Huppert is currently an Assistant Professor of Otolaryngology and Pediatric Audiologist at University of Miami Ear Institute, where he leads the multi-disciplinary Pediatric Equilibrium Team. Dr. Huppert’s specific vestibular interests include central vestibular mechanisms mediating aspects of vestibular cognition (e.g., spatial awareness, navigation, and memory), central compensation following vestibular insult, and isolated otolith dysfunction. Other audiolodic passions beyond vestibular include electrophysiology and evaluation of special and/or medically involved populations.

Dr. Nina Capone Singleton is an Associate Professor of Speech-Language Pathology at Seton Hall University. She directs the Developmental Language and Cognition Lab and The Feeding Project. Her clinical practice with infants, toddlers, and children has spanned over 25 years in a variety of settings including hospitals, outpatient clinics, research, and naturalistic settings. One line of Dr. Capone Singleton’s research follows how children learn to advance texture. Her second line of research examines the intersection of gesture development and word learning in young children with and without language impairments.

Hotel and Parking

Reserved parking is available on Thursday and Friday in the North Lawn of the stadium, across from Emerson Hall. Please pay in advance or at the registration table in order to secure a spot.

You will be given a pass for your car as you enter the parking lot, if you have paid in advance.

History of the G. Paul Moore Symposium

This symposium is named in honor of Dr. G. Paul Moore, Distinguished Professor Emeritus and renowned scholar in the field of Communication Disorders. The University of Florida chapter of the National Student Speech-Language-Hearing Association (NSSLHA) organizes this event as a tribute to Dr. Moore’s outstanding contributions in the fields of audiology and speech-language pathology. NSSLHA strives to host speakers that reflect the standards of excellence set by Dr. Moore. Our objective is to increase awareness of current issues and ongoing research in the field of communication disorders.
This course is offered for up to 1.0 ASHA CEUs (Intermediate level, Professional Area)
