PURPOSE AND OUTCOME Course Overview
This course is designed to introduce students who are interested in pursuing careers in fields related to human communication to sound and auditory perception. The course is organized around three major topic areas:

1) Sound: How it is generated, propagated, and analyzed
2) Structure and function of the human auditory system
3) Perceptual processes involving nonspeech and speech signals

Course Objectives:
At the end of this course, students will be able to:

- Explain how nonspeech and speech signals are generated and propagated
- Understand analyses, descriptions, and graphs of acoustic waveforms and spectrograms
- Compute or derive measurements of amplitude, frequency, phase, and time for acoustic signals
- Describe structures and functions of the human auditory system from the pinna to the cortex
- Explain the role that complex auditory functions had in the evolution of language for the species and have in the development of language for the individual
- Explain categorical speech perception
- Evaluate research reports and critically assess quality of the science presented in those reports

Instructional Method: Lectures, readings
This course will use blended learning, which is a composite of face-to-face meetings and recorded lectures. The recorded lectures provide the student with the opportunity to review the material at the rate and with the repetition that matches individual learning needs. It allows the instructor to include demonstrations that would be difficult to provide in class. Each student is responsible for interacting with the course content to the extent required to reach mastery. Instructional staff are available to support student learning, as requested.

DESCRIPTION OF COURSE CONTENT
Required Textbook:

Required App:
iClicker
#1 Why study sound and hearing
Assignments: Read chapters 1 and 2; get calculator with logs
W 8/24: Review course syllabus; Meet your classmates
F 8/26: AT HOME Recorded lecture on why we study hearing

#2 Sound generation; logs & decibels
Assignments: Read Chapter 3 and Appendix B; do log/decibel exercises
M 8/29: Introduction to logs; Practice with logs
W 8/31: Introduction to decibels and simple harmonic motion; More log practice
F 9/02: AT HOME Recorded lecture on Simple Harmonic Motion; Advanced log practice

#3 Sound propagation and impedance
Assignments: Review material, practice log & decibel calculations, at-home lecture
M 9/05: LABOR DAY HOLIDAY – NO CLASS
W 9/07: AT HOME Recorded lecture on Sound Propagation
F 9/09: Sound propagation and impedance; Quiz #1 (50 points)

#4 Introduction to complex sounds
Assignments: Study for exam
M 9/12: AT HOME Recorded lecture on More on Sound Propagation
W 9/14: In class review
F 9/16: AT HOME Recorded lecture on Complex Sounds 1

#5 Complex sounds, noise, and filters
Assignments: Read Chapters 4 and 5
M 9/19: Exam #1 on Chapters 1-3 and logs/dB (150 points)
W 9/21: Lecture on Complex Sounds
F 9/23: AT HOME Recorded lecture on Complex Sounds 2

#6 Sound analysis for speech
Assignments: Study for exam
M 9/26: AT HOME Lecture about Noise and Filters
W 9/28: In class review
F 9/30: Exam #2 on Chapters 4-5 (150 points)

#7 Structures of outer to inner ear
Assignments: Read Chapters 6 and 7
M 10/03: AT HOME Lecture on outer and middle ear
W 10/05: Lecture on inner ear structures
F 10/07: HOME COMING HOLIDAY – NO CLASS

#8 Inner ear to brainstem
Assignments: Read Chapter 8
M 10/10: Lecture on inner ear functions
W 10/12: AT HOME Lecture on the auditory nerve
F 10/14: Lecture on the auditory brainstem Quiz on outer to inner ear (50 pts)

W 12/07: Exam #4 on Chapters 10, 12, and 13 (150 points)

FINAL EXAM: During scheduled time for class period (200 points)

ACADEMIC REQUIREMENTS AND GRADING

Assignments
1. Lectures: This is a hybrid course. Some lectures will be in person and some will be online. The student is responsible for watching all lectures and taking notes. The student is responsible for communicating with the instructional staff when there is a problem with comprehension.

2. Reading: The student is responsible for reading all assigned material. Test questions can be asked on any material from assigned chapters.

3. Computational practice: The student is responsible for completing all assigned practices and checking answers against answer sheets provided. Similar problems will be found on tests.

4. Written Papers: The journal article review will count for 10% of the student’s grade. The journal article to be reviewed will be assigned. A guide for the review paper is provided in the Assignments section of Canvas, as well as a scoring rubric.

Thus, grades will consist of:
10%: Two quizzes will be worth 50 points each
60%: Four exams will be worth 150 points each
10%: Review Paper
20%: Final Exam TUESDAY, DECEMBER 13 AT 3:00 PM

Grades of WF, I, NG, and S-U each correspond with 0.0 grade points. For greater detail on the meaning of letter grades and university policies related to them, see the Registrar’s Grade Policy regulations at:
http://catalog.ufl.edu/ugrad/current/regulations/info/grades.aspx

Policy Related to Required Class Attendance
Attendance is required. If you are unable to attend class you need to let the instructor know ahead of time. Under special circumstances attendance via zoom will be permitted.

Policy Related to Exams and Quizzes
Exams and quizzes must be taken at the scheduled time on the scheduled days. Failure to complete exams or quizzes at scheduled times will result in a zero grade. There are no exceptions, so plan to be available at those times.

STUDENT EXPECTATIONS, ROLES, AND OPPORTUNITIES FOR INPUT

Expectations Regarding Course Behavior and Communication Guidelines
You are expected to attend class and participate. Each class member has a different perspective and sharing provides a more meaningful exchange of ideas and interest. As a professional you
will often be required to voice your opinion and perspective. Be respectful to the ideas of peers or
the instructor if they differ from your own beliefs or experiences.

**Academic Integrity**

Students are expected to act in accordance with the University of Florida policy on academic
integrity. As a student at the University of Florida, you have committed yourself to uphold the
Honor Code, which includes the following pledge:

*We, the members of the University of Florida community, pledge to hold ourselves and
our peers to the highest standards of honesty and integrity.*

You are expected to exhibit behavior consistent with this commitment to the UF academic
community. On all work submitted for credit at the University of Florida, the following pledge is
either required or implied:

*On my honor, I have neither given nor received unauthorized aid in doing this
assignment.*

It is your individual responsibility to know and comply with all university policies and procedures
regarding academic integrity and the Student Honor Code. Violations of the Honor Code at the
University of Florida will not be tolerated. Violations will be reported to the Dean of Students
Office for consideration of disciplinary action. For additional information regarding Academic
Integrity, please see Student Conduct and Honor Code or the Graduate Student Website for
additional details: https://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/
http://gradschool.ufl.edu/students/introduction.html

Please remember cheating, lying, misrepresentation, or plagiarism in any form is unacceptable
and inexcusable behavior

**Online Faculty Course Evaluation Process**

Students are expected to provide feedback on the quality of instruction in this course
by completing online evaluations at https://evaluations.ufl.edu. Evaluations are
typically open during the last two or three weeks of the semester, but students will be
given specific times when they are open. Summary results of these assessments are
available to students at https://evaluations.ufl.edu/results/.

**SUPPORT SERVICES Accommodations for Students with Disabilities**

If you require classroom accommodation because of a disability, it is strongly
recommended you register with the [Disability Resource Center](https://www.dso.ufl.edu/sccr/process/student-conduct-honor-code/)
within the first week of
class or as soon as you believe you might be eligible for accommodations. The Disability
Resource Center will provide documentation of accommodations to you, which you must
then give to me as the instructor of the course to receive accommodations. Please do this
as soon as possible after you receive the letter. Students with disabilities should follow
this procedure as early as possible in the semester. The College is committed to providing
reasonable accommodations to assist students in their coursework.

**Counseling and Student Health**

Students sometimes experience stress from academic expectations and/or personal and
interpersonal issues that may interfere with their academic performance. If you find yourself
facing issues that have the potential to or are already negatively affecting your coursework, you
are encouraged to talk with me and/or seek help through University resources available to you.

- The Counseling and Wellness Center 352-392-1575 offers a variety of support services
  such as psychological assessment and intervention and assistance for math and test
  anxiety. Visit their web site for more information: [http://www.counseling.ufl.edu](http://www.counseling.ufl.edu). On line
  and in person assistance is available.
• If you are feeling overwhelmed or stressed, you can reach out for help through the You Matter We Care website, which is staffed by Dean of Students and Counseling Center personnel. You Matter We Care website: http://www.umatter.ufl.edu.

• The Student Health Care Center at Shands is a satellite clinic of the main Student Health Care Center located on Fletcher Drive on campus. Student Health at Shands offers a variety of clinical services. The clinic is located on the second floor of the Dental Tower in the Health Science Center. For more information, contact the clinic at 392-0627 or check out the web site at: https://shcc.ufl.edu/

• Crisis intervention is always available 24/7 from:
  Alachua County Crisis Center:
  (352) 264-6789
  http://www.alachuacounty.us/DEPTS/CSS/CRISISCENTER/Pages/CrisisCenter.aspx

Do not wait until you reach a crisis to come in and talk with us. We have helped many students through stressful situations impacting their academic performance. You are not alone so do not be afraid to ask for assistance.

Inclusive Learning Environment
Public health and health professions are based on the belief in human dignity and on respect for the individual. As we share our personal beliefs inside or outside of the classroom, it is always with the understanding that we value and respect diversity of background, experience, and opinion, where every individual feels valued. We believe in, and promote, openness and tolerance of differences in ethnicity and culture, and we respect differing personal, spiritual, religious and political values. We further believe that celebrating such diversity enriches the quality of the educational experiences we provide our students and enhances our own personal and professional relationships. We embrace The University of Florida’s NonDiscrimination Policy, which reads, “The University shall actively promote equal opportunity policies and practices conforming to laws against discrimination. The University is committed to non-discrimination with respect to race, creed, color, religion, age, disability, sex, sexual orientation, gender identity and expression, marital status, national origin, political opinions or affiliations, genetic information and veteran status as protected under the Vietnam Era Veterans’ Readjustment Assistance Act.” If you have questions or concerns about your rights and responsibilities for inclusive learning environment, please see your instructor or refer to the Office of Multicultural & Diversity Affairs website: www.multicultural.ufl.edu

Students are allowed to record video or audio of class lectures. However, the purposes for which these recordings may be used are strictly controlled. The only allowable purposes are (1) for personal educational use, (2) in connection with a complaint to the university, or (3) as evidence in, or in preparation for, a criminal or civil proceeding. All other purposes are prohibited. Specifically, students may not publish recorded lectures without the written consent of the instructor.

A “class lecture” is an educational presentation intended to inform or teach enrolled students about a particular subject, including any instructor-led discussions that form part of the presentation, and delivered by any instructor hired or appointed by the University, or by a guest instructor, as part of a University of Florida course. A class lecture does not include lab sessions, student presentations, clinical presentations such as patient history, academic exercises involving solely student participation, assessments (quizzes, tests, exams), field trips, private conversations between students in the class or between a student and the faculty or lecturer during a class session.

Publication without permission of the instructor is prohibited. To “publish” means to share, transmit, circulate, distribute, or provide access to a recording, regardless of format or medium, to another person (or persons), including but not limited to another student within the same class section. Additionally, a recording, or transcript of a recording, is considered published if it is posted on or uploaded to, in whole or in part, any media platform, including but not limited to social media, book, magazine, newspaper, leaflet, or third party note/tutoring services. A student who publishes a recording without written consent may be subject to a civil cause of action instituted by a person injured by the publication and/or discipline under UF Regulation 4.040 Student Honor Code and Student Conduct Code.
